March 8, 2010

Dear Hartland Consolidated Schools' Parents:

I was notified by the Livingston County Sheriff's office that a police report had been filed by parents in the Hartland Shores Subdivision (Long Lake Dr. near North Ct.) regarding a suspicious vehicle. According to the report, on Friday a middle school student was approached by a gray-haired white man in his 40's driving a light blue, four-door car while the student waited at the bus stop with her dog for a younger sibling. The man asked her to get into his car, and when she refused he grabbed her dog. The student ran. The bus arrived at this point causing the man to release the dog and drive away.

Please talk with your child and reinforce that they should not talk or go anywhere with strangers and should report any suspicious activity to you. If you do see this vehicle in your area, call 911 immediately and report it to the police. This letter is not intended to incite panic or hysteria, but to make you aware of a possible danger in the district so that you can provide your children with the necessary information so they can act if needed to keep themselves safe.

Sincerely,

A handwritten signature in black ink that reads "Janet Sifferman".

Janet Sifferman
Superintendent
