Fax (810) 626-2101

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2017-18 educational progress for the Hartland Consolidated School District. The AER addresses the complex reporting information required by federal and state laws. Our staff is available to help you understand this information. Please contact Chuck Hughes at 810-626-2100 for help if you need assistance.

The DISTRICT AER is available for you to review electronically by visiting the following web site: www.hartlandschools.us, or you may review a copy in the main office at your child's school. Each school will also be communicating their own AER to parents directly. These reports contain the following information:

Student Assessment Data – Includes the following four assessments: M-STEP (Michigan Student Test of Educational Progress), MI-Access (Alternate Assessment), and College Board SAT (11th grade). The data presents assessment information for English language arts and mathematics for grades 3-11, as well as science and social studies for grades 5, 8 and 11. This data is compared to state averages for all students as well as subgroups of students. The report helps users to understand achievement performance within grades and schools, and to make comparisons to district, state, and national achievement benchmarks.

Accountability – Detail Data and Status

The accountability portion of the AER includes assessment proficiency and participation rates, graduation or attendance rates, as well as accountability index values showing school performance on a 0-100 scale.

Teacher Qualification Data

- Identifies teacher qualifications at district and school levels.
- Reports percentage of core academic classes taught by teachers not considered highly qualified to teach such classes.

NAEP Data (National Assessment of Educational Progress)

- Provides state results of the national assessment in mathematics and reading every other year in grades 4 and 8

I wish to thank the district's students, parents, staff, and community for your continued support of our efforts to ensure that children graduating from the district do so with the fundamental knowledge and skills necessary for success in the post-secondary environment.
