## Superintendent's Message

Janet Sifferman, Superintendent

In March of 1994 Michigan voters approved Proposal A, an action that changed how public schools in the State of Michigan would be financially supported. Proposal A set a fixed tax rate on primary homesteads – 6 mills - and this, in addition to other taxes such as sales, income, liquor, and cigarette, as well as lotto revenues are funneled into the school aid fund. Additionally, an 18-mill non-homestead tax for commercial, industrial, non-primary residences and non-qualified agricultural land also goes into the school aid fund. Each public school district in the state is then given a per-pupil foundation allowance from this fund. The state assumes that each district collects the full 18 mills for non-homestead property but requires that the collection of this millage renewal come before the voters as a ballot proposal for their approval. Should the renewal proposal fail, the state does not make up the difference in the district's per-pupil foundation allowance allotment.

This important election will take place on Tuesday, May 6, 2014. Voters in the Hartland Consolidated School district will be asked to maintain the full 18-mill Non-Homestead millage for the district's operating budget. Essentially, the ballot question asks voters to keep the same non-homestead millage rate (18 mills) that has been in effect since 1994 and costs residential homeowners in Hartland nothing more than their time to vote. The revenue from this proposal represents approximately \$4.3 million for Hartland Schools' operating fund.

There will be more information regarding this election in the April issue of Community Life. You can also find information at any of our district buildings and on our web site: hartlandschools.us. Please feel free to call Scott Bacon or me if you have any questions at 810.626.2100.

## Person of the Month

Chuck Caverly

I have been with Hartland Schools for 37 years, starting just one month before my first son, Roy, was born. I figured my wife would like it if I was employed when we had our first child. I was lucky enough to have Judy Peddie for a neighbor, as she was a bus driver for Hartland and convinced me to apply for the job; I have been there ever since. I am a Master

Certified ASE Technician with many certifications, but initially thought I would go into teaching. I attended Eastern Michigan University to be an elementary school teacher, but then followed my passion of the automotive industry working at dealerships. I spent a short time in construction, and then found my niche in Hartland.

Born and raised in Howell, my grandparents owned the Livingston County Press until 1964 when my grandfather decided to retire. This May, I'm happy to say that I will be celebrating my 42nd anniversary with my wife, Carol, who works at LESA. Our two sons, Roy and Ryan are also in the automotive arena. Roy is owner of Roy's Autoworks in Howell, with Ryan being a service writer there. Ryan raced in the open wheel Modified division for seven years on mid-Michigan oval tracks, which took up every weekend. It was tons of work, along with tons of excitement. We have three grandchildren. Kylie is our dancer, Landon is our baseball player and we are just waiting to see little Avaya take her first steps. Supporting our children in their endeavors is very meaningful for me. I'm an avid golfer and am currently restoring a 1967 Chevelle, which I am hoping to have finished this summer.

I don't think many people know this, but my office for many years was actually a section of the MEN's room at the old facility for Transportation! So, when we moved our operation over to the HESSC building, and I moved into a real office, I was thrilled. One of the funniest moments in Hartland was on my 50th birthday when a number of coworkers surprised me and dressed up as "Chuck Caverly," complete with uniforms and beards!

I take great pride in the number of 100% State Police Inspections we have received over the years, even though my wife teases me that we only get them because of the baked goods she gives me to take in to the inspectors. When I first started here we had 26 busses; at our highest point, we were servicing 72. I'm very proud of the transportation department and the effort our staff puts into making sure the busses are safe for students. Safety is our number one priority and we will do whatever it takes to keep not only the busses, but also our facility safe. This takes a team effort and is made easier because our Administration and School Board recognize the importance of maintaining the fleet by approving the purchase of new busses on a regular schedule, and staffing the department appropriately.

Being a part of the Hartland School family for so many years, I have seen how everyone works as a team to create an environment of respect for students, staff and community, and that is what makes Hartland a great place to work.

## What Happens On Professional Development Days?

Periodically throughout the school year, teachers report to work for professional development while students stay home. This is time for teachers to collaborate and participate in training or workshops to improve instruction. In January, teachers worked on technology integration and HMS science teachers looked at "Next Generation" science standards. Past work this year has also involved the following:

- Common Core
- Curriculum Alignment
- Writers Workshop
- Depth of Knowledge training
- Formative Assessment
- Instructional Consultation Teams (ICT)

HMS teachers Rob Jellison, Dale Wagnitz, and Marcus French look at the "Next Generation" Science Standards during a recent Professional Development day.

## Student Council News

In January and February, the HMS Student Council collected coins and bills for the American Red Cross Penny Drive. Pennies counted as positive points and silver coins and bills were negative (as classes competed for who could collect the most money). In February, we promoted the Hearts and Flowers sale for Valentine's Day.

### Homework Battles and Reading Difficulties Resolved— Thanks to Vision Therapy!

“Shelby’s entire 1st & 2nd grade was spent struggling to read and she had a terrible time spelling. I spent the entire two years asking if there was something wrong, as a mother I knew there was...

After receiving her test scores at the end of second grade the proof was in the very low performance scores. Although Shelby could read at grade level because we worked so hard at it, it was very frustrating and unenjoyable for her and her reading scores reflected that.

A friend recommended Hartland Eye Care because of the specialization in vision problems that can contribute to learning difficulties. It turns out that Shelby had an eye movement problem (also known as a tracking problem). Everything about the tracking issue fit Shelby to a “T”. She would fight me on doing homework, couldn’t spell very well, never wanted anything to do with the computer etc.

After the initial meeting Shelby started the vision therapy. After completing vision therapy, she was retested in January and her reading went from below average to high average. Her spelling has improved dramatically and she loves the computer!”

### Serving the Hartland Community for 20 years...

In addition to providing family vision care, Dr. Doud has been diagnosing and treating vision problems that interfere with reading and learning for more than 11 years. Dr. Doud has treated hundreds of patients from the Hartland and surrounding communities from all over South East Michigan.

“It is very rewarding to see children excel who previously struggled because of underlying vision problems,” shares Dr. Doud. Most people don’t realize that seeing 20/20 is just one of 17 visual skills required for academic success. All 20/20 means is that you can see the size of letter you are supposed to see from 20 feet. If your child continues to struggle with reading despite all best attempts to help, a vision problem could be at the root of his or her difficulties.

## Green Schools

Lakes Green Schools initiative continues this year as there are many projects popping up around the building.

Members of our Green Schools Club (Cali Dufner, Lizzy Arnold, Grace Maurin, and Ben Smith) put the finishing touches on our recycled bottle cap outdoor murals (the frog, the butterfly and the tree) which will hang on the fence next to our front parking lot.

Also, two of our fourth grade recycle safeties (Lucas Ewing and Aiden Cellarius) collect either paper or plastic bottles to be recycled each week.

## Lakes Kids Care

Each week, several students are nominated and chosen as our Lakes Kids Care Heroes. These are students who have "Shared the Care" and are recognized for showing kindness and respect towards others. Pictured here are some of our heroes: Front row: Hunter Corden, Spencer Mezel, Ray Chanavier, James Petrucci, Bri Schulte, Brenan Schleede, and Ryleigh Harris. Back row: Alec Sheffer, Natalie Holme, Ellie Schaeffer, Ryan Bohlen, Gavin Smiliowski, Todd Pietila, and Izabelle Bender. Congratulations!!

Every Monday Morning, the entire Lakes School Community, recites together the Lakes Kids Care Promise as a building. We try to live by these promises each and every day. Holding up the LKC Promise poster that hangs in every classroom are kindergarten students Bailey Ryan and Cristian Kotak.

Mrs. Smith's third grade class recently composed amazing poems about what it means to Share the Care at Lakes Elementary. The poems are displayed in the school hallway, and students Kirby Larson, Brandon Rohrer, Sydney Rose, Delaney Gomolka, Malyna Nulf, and Edona Vuli are very proud of their classes' efforts.

As the state of education continues to change and students and teachers are forced to perform at a rate faster than ever, much pressure is placed upon the educational process. Pressure is not always a productive tool for some.

Many people find pressure to be overwhelming and unfortunately, less positive progress is gained. We as teachers try to balance the pressure with teaching children and caring for their educational growth. Many kudos to all the great teachers who can find the proper balance in being an educator today with so many pressures.

Here at LEGACYHS the staff takes a unique approach; with concern for the whole child and individual care for their growth and learning! Students in alternative education have an amazing opportunity to achieve success in a small caring and unique setting.

The staff is so very talented and takes great pride in providing an education that is rigorous in nature yet steeped in care for the learner. Use of brain research and best practice reinforces our right-brain approach to the classroom to better support struggling learners.

Attending school at LEGACY HS or HVA is a great educational opportunity for students who need a different approach. Referrals for Fall 2014 are being collected as a waiting list is utilized for future enrollment. As a destination School of Choice in southeast Michigan, Hartland Alternative Ed is here to meet your learning needs.

## LEGACY hosts Basketball Tournament

On Wednesday, January 30 LEGACY Alternative HS hosted a basketball tournament with three other local Alternative High Schools. LEGACY (Hartland), ACADEMYWEST (Flint), Saginaw ETC (Saginaw) and Lincoln Owosso (Owosso).

Games tipped off at 10 a.m. and ran straight through until the end of school at 2 p.m. LEGACY students that were not on the school team had the opportunity to come down during their school day to cheer on all the basketball players.

Academy West from Flint has won three of the four Alternative State Championships. They were the victors of this event and look like they could take States again this upcoming March.

## News from Hartland Township

### Getting to Know the Township: Dave Campbell

Leaving work at the office is never easy for Hartland Planning Department Director Dave Campbell.

“My wife is very nervous driving with me because I’m always looking off to the side of the road. I try to explain that, as a planner, I’m always interested to see how other communities are developing land and how that might apply to projects in Hartland Township,” says Dave. “Her general response is: ‘That’s great, but you just missed our turn.’”

Dave left his position as a Novi City Planner to join Hartland Township in October 2012. He wasn’t here long before deciding with his wife Janelle that Hartland was the place they wanted to raise their two young sons.

Since joining Hartland, Dave has championed early interaction between residents and businesses with the Township in the beginning stages of any project. He stresses that a five-minute conversation can often save residents a lot of time and effort later in a project.

“Hartland is made up of terrific people,” says Dave. “I am really enjoying interacting with the community as a representative of the Township, but even more so as a resident, neighbor and parent.”

### New Sewer Rate Structure

Since ownership and operation of the Hartland Township sewer system was transferred to the Livingston County Drain Commission in 2008, the Township has worked diligently to advocate for minimal rate increases for residents. Quarterly increases are necessary to adjust for increased cost.

**The following rate structure will be in place beginning April 1, 2014:**

Readiness to Serve - \$22.40 per quarter

Capital Charge - \$15.09 per REU per quarter

Grinder Pump Surcharge - \$32.06 per quarter

Metered - \$6.80 per 1,000 gallons

Non-Metered - \$121.13 flat rate per quarter

For more information on the Township sewer system and rates, visit [www.hartlandtwp.com](http://www.hartlandtwp.com). Residents may also contact the Township Finance Department at (810) 632-7498.

### Understanding Life Sustaining Measures

You have decided to follow your Physician’s advice and complete your Health Care Directive thus providing a clear understanding of your wishes as they relate to life sustaining measures. You understand the significance of having a Health Care Directive, but as you re-search the process you are confronted with a lack of understanding regarding what life sustaining measures encompass.

Life sustaining measures can be defined as, “Any medical treatment in which the primary goal is to prolong life rather than treat the underlying condition.” In such cases an individual’s own body is not capable of sustaining proper functioning on its own without medical intervention.

**Artificial nutrition and hydration** are utilized when an individual is not receiving the nutrients necessary for

health and well-being. Artificial nutrition (tube feeding) requires a tube be placed into the stomach or the upper intestine. Hydration (fluid replacement) involves tube placement intravenously (IV) via a needle.

**Cardio-pulmonary resuscitation (CPR)** is used when an individual’s heart beat and/ or breathing has stopped. CPR includes treatments such as mouth-to-mouth resuscitation, chest compressions, electric shock and/ or drugs to restart the heart. CPR can be life-saving; however there is a risk of broken or cracked ribs, punctured lungs, and death.

**Mechanical ventilation** supports a person’s breathing when they can no longer breathe on their own. In this situation, a machine called a ventilator forces air into the lungs via tubing in the mouth or nose.

**Dialysis** is the artificial process by

which waste products and excess water are removed from the blood. It is used when the kidneys are no longer able to do this adequately.

These examples of life sustaining treatments are just a few of the more common measures taken to continue life when one or more body systems are not working properly. Deciding what, if any, treatments are right for you should depend on several factors:

Does the treatment relieve suffering, restore functioning, or enhance the quality of life? If so, these would be some of the benefits of treatment. Conversely, a treatment may be considered problematic if it is painful, prolongs the dying process or negatively affects the quality of life. Other questions to ask yourself might be: What are my values as they relate to life prolonging measures? Who will carry out my wishes should I become

incapacitated? If I start treatment and it does not improve my status, will I want to continue that treatment? If so, when? (It should be noted that it is ethically and legally acceptable to discontinue a treatment that is no longer of benefit. It is the disease, not the withdrawal of treatment, that causes death.)

How you choose to complete your Health Care Directive and what measures you choose to take are up to you. Talk to your doctor and don’t be afraid to ask questions if you find the terminology confusing or you simply don’t understand. Ultimately, understanding your Health Care Directive and the medical terminology associated with it will enable you to communicate your wishes to those providing your health care and increase the likelihood that your wishes will be honored.

## Hartland Senior Softball

They may not run the bases as fast as they did in their primes, but that doesn't really matter. This is the fourth year the Hartland Senior Center has co-sponsored senior softball. Last year there were 15 regular season games, with practices on Mondays and games on Wednesdays. The league consists of six teams from Hartland, Brighton, Fenton, Linden, and Milford. There are nearly 100 players ranging in ages from 55 to 75 but the median age is closer to 65. All games are held at Tag's Sports Complex. Socialization is a really important element as we cheer and support each other throughout the season. So if you are already active or are looking for a way to be more active and like to do healthy things while having fun visit our website [www.hartlandseniorsoftball.com](http://www.hartlandseniorsoftball.com) or contact Jim Wallace (League Coordinator) at 248.946.9192.

## Hartland Rotary

Hartland Rotary continues to be involved with youth leadership training at Hartland High School. Several members of Hartland Rotary joined with Fowlerville and Livingston Sunrise Rotaries to mentor Hartland High School students. "Reaching Higher" is an eight week program giving selected students the skills to become better leaders. The mentors help "their" small group of students with goal setting, public speaking, and other positive focuses, while in the large group setting the students practice the skill sets that are emphasized. Graduation evening finds the students miraculously changed. They now understand how the "power of hope" gives them the "skills to cope." Another class is forming and will be starting this month. The classes are being taught by Nicole Schingeck, counselor and Scott VanEpps, Asst. Superintendent with six community leaders as mentors.

Hartland Rotarians were active again this year at Community Connect, Parker Middle School on Saturday, February 1. Our function there was twofold: working as Guides and with the Livingston County Literacy Coalition (LCLC). Guides help a family immediately as they register. The family is escorted to each of the areas of their need; Gleaners, Salvation Army, Hair Salon, etc. LCLC is at Community Connect to let guests know that free adult tutoring is available to adults who need help with reading skills or help with English as a second language. Hartland Rotarians participated again in "Walk for Warmth" at the District Central Offices in February. Frank Crouse was our first place Rotarian for collecting the most financial support in this endeavor.

Hartland Rotary meets every Thursday for breakfast, followed by an informative presentation. Visitors are welcome to join us at Hartland Insurance, 2532 Old US 23 in Hartland at 7:30AM. If you have a passion for community and world service and enjoy sharing fellowship with those of similar desire, please join us. For information visit: [www.hartlandrotary.org](http://www.hartlandrotary.org).

## Cromaine District Library presents

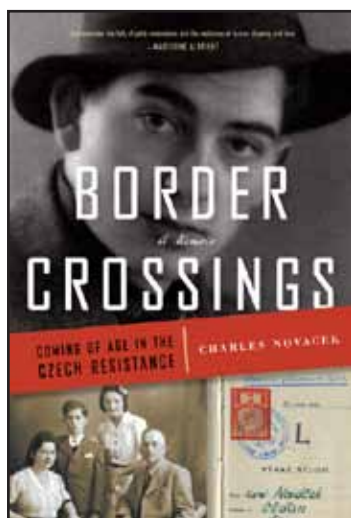

### "A Visit with Sandy Scherba Novacek, Author, Publisher and Librarian"

May 9, Cromaine District Library will partner with the Friends of Cromaine to offer two events, both featuring former Library Director Sandra Scherba Novacek and each a fundraiser for the Friends of Cromaine Library. Tickets for both events will be available beginning March 1, 2014 at each of the libraries' circulation desks.

Friday, May 9, "A Visit with Sandy Scherba Novacek, Author, Publisher and Librarian" will be held from 9:00 to 11:00 am at Waldenwoods Banquet & Conference Center. Sandy will talk about her path from Librarian to Publisher. She will have the book, "Border Crossings: Coming of Age in the Czech Resistance," a memoir of Charles Novacek's experience during World War II as an 11-year-old boy warrior, for sale and signing. The event will include a breakfast buffet with omelet station. Your \$25 per person ticket is a contribution in part to the Friends who give more than \$10,000 each year to fund library events, collections, and services.

The same day, Friday, May 9, there will be an after-hours event at the Village Library from 6:00 to 8:00 pm. At the evening event, Sandy will talk in more detail about Charles' life as a child warrior, as well as his love of art and paintings. The paintings will be on exhibit at the Village Library through Memorial Day and into the first week of June. A menu of Czech foods, from appetizers to soup to desserts (OH, the pastries!!!) and non-alcoholic beverages, will be offered. Bayanina, Eastern Europe accordionist, will entertain as you enjoy the exhibit and purchase and have signed your copy of "Border Crossings." Your ticket for the evening event only is \$35 per person.

If tickets are purchased for both the morning and the evening events at the same time, there is a \$5 discount--making the cost to attend both events a total of \$55 for the community. This is a wonderful investment in the Friends of Cromaine who singlehandedly manage donations of many thousands of used books and media each year turning your discards into summer music, the Big Read, scholars, performers, free NEW books, and much more.
