Dear HCS Education Community:

You're invited!

The Career and Technical Education department at Hartland High School will be hosting a vocational and technical program open house tonight, January 19, 2022, from 5:00 pm to 7:00 pm. This open house will allow students, parents, and members of the community the opportunity to explore several programs including: automotive, building trades, business, engineering, animation, architecture, nutrition, fashion & fabrics, housing & design, parenting, computer science, marketing, finance, teacher preparation, and energy technology. You will be able to talk with instructors, explore the facility, see live demonstrations, speak with college representatives, and explore career opportunities. Snacks will be available.

Parent Perception Survey 2021-22:

With the completion of the JK-6 Parent Perception Survey, 90% of you have indicated that "school is a safe place for my child," 95% agreed or strongly agreed that "school is an inviting and welcoming place for my student to learn," and 94% stated that "school treats my student with respect." Once the middle school and high schools have completed this survey process, I will share the full results at a future Board meeting. Thank you for taking the time to help us better understand your perspective on the work we do to educate and care for students.
