September 14, 2022

Dear HCS Education Community:

## **Meet Meghan Glabach, Board of Education Trustee**

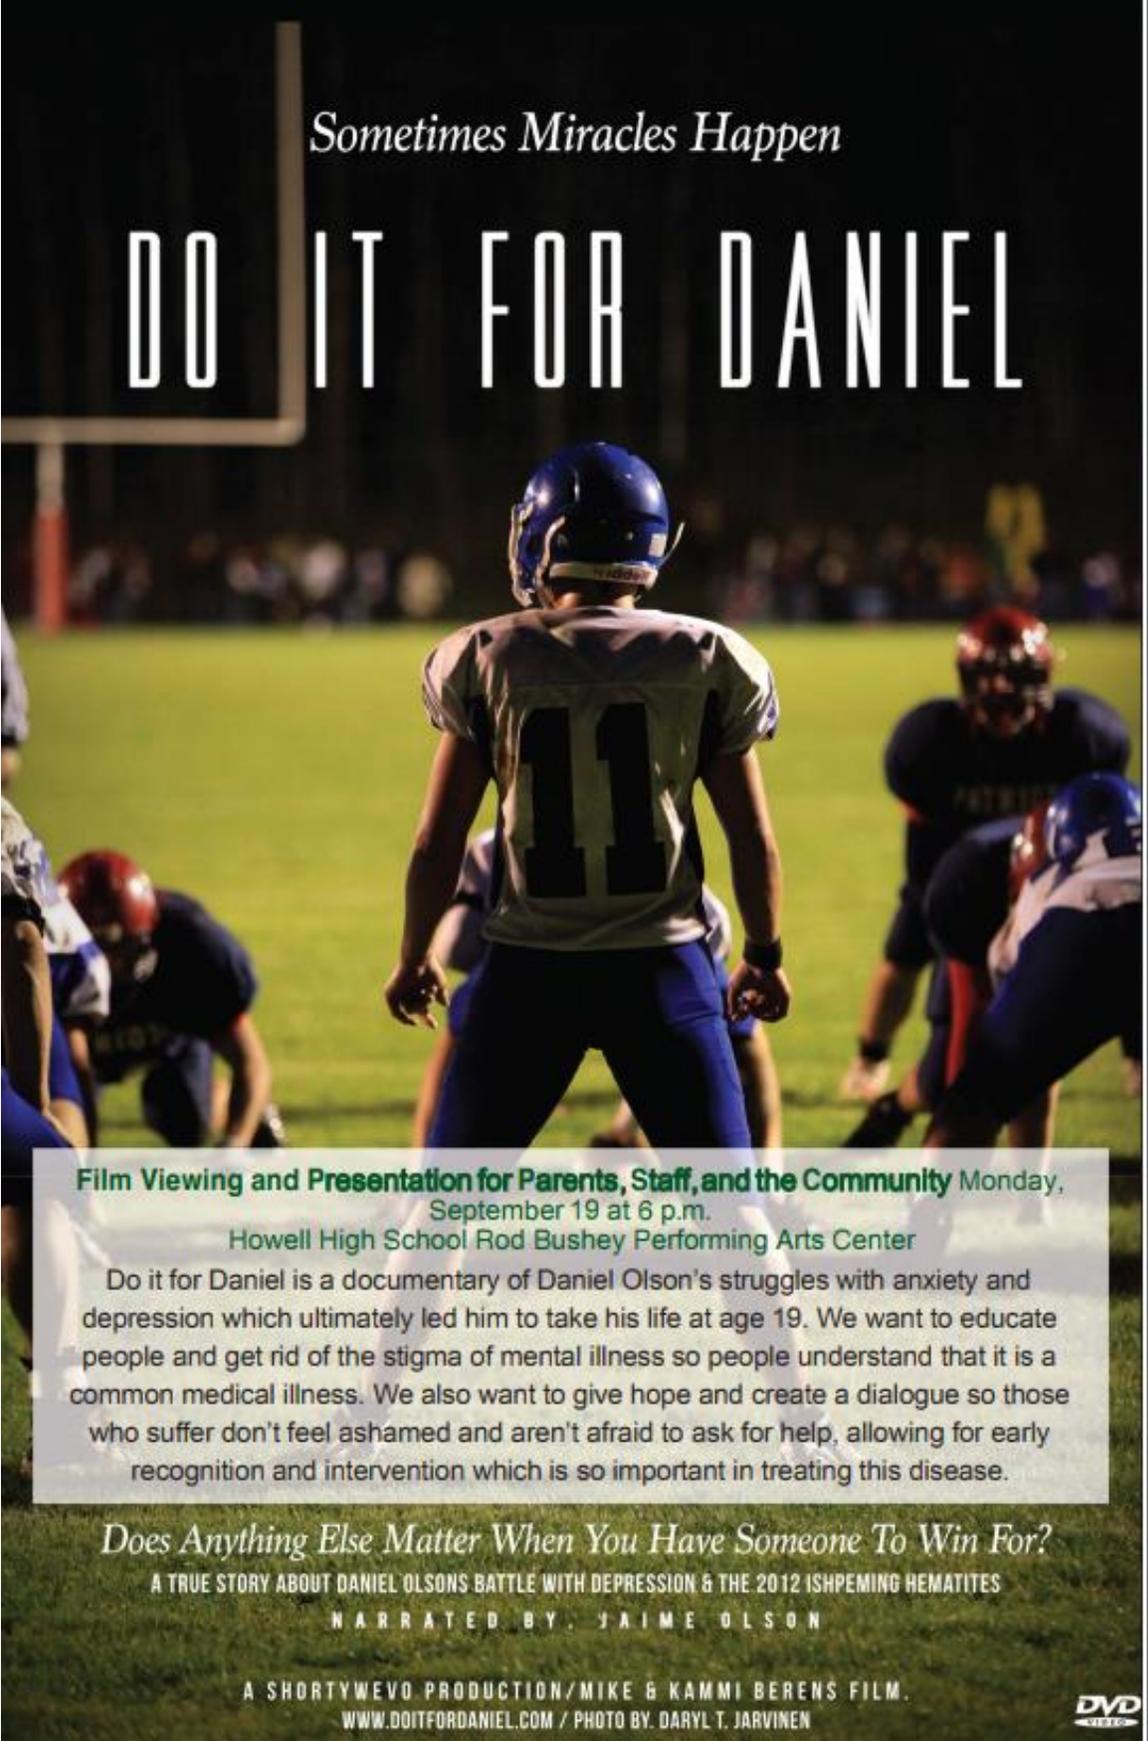

Mrs. Glabach was appointed to the Board of Education in February of 2022 to replace long time Trustee and Vice President, Mrs. Cyndi Kenrick. She has lived in the district for eight years although her husband has spent most of his life in Hartland and is a proud Hartland High School graduate. In her five months on the Board of Education, Mrs. Glabach has focused on supporting the needs of staff and students in the district.

Mrs. Glabach is married and has two children who attend Hartland Schools. Her insight into the needs of children has been invaluable. She is a nurse by trade but has spent the last eight years leading various teams as an administrator. She enjoys spending time with her family, and certainly giving back to this community. Over the last several years she has run the district's Adopt-a-Family program as an active member of the Hartland Optimist Club, and has participated in various organizations, serving as a board member on the PTO at Village Elementary and on athletics boards.

The reason why she chose to seek out a Board of Education seat was to expand her ability to give back to our community. Mrs. Glabach values our public-school system and wants to continue to support education for all. She is most proud of the educational environment we have created through one of our greatest assets, which are our teachers and staff. She states that “not only have we created a wonderful educational environment, but we have tremendously excelled in athletics, and other extracurricular activities winning titles throughout the nation.”

The hopes that she has for the district are first and foremost, that HCS will remain a premiere school of choice district and stand on its mission to provide an education for all. She intends to remain focused on ensuring the district recruits and retains highly qualified teachers and staff and continues to expand upon our curriculum and extracurricular activities. She would like to see the district remain competitive at the state and national level. Most importantly, she supports the work being done to keep our schools as safe as possible.

Parents are invited to this presentation @ Howell High School on September 19, 2022 at 6:00 p.m.

*Sometimes Miracles Happen*

# DO IT FOR DANIEL

**Film Viewing and Presentation for Parents, Staff, and the Community** Monday,  
September 19 at 6 p.m.  
Howell High School Rod Bushey Performing Arts Center

Do it for Daniel is a documentary of Daniel Olson's struggles with anxiety and depression which ultimately led him to take his life at age 19. We want to educate people and get rid of the stigma of mental illness so people understand that it is a common medical illness. We also want to give hope and create a dialogue so those who suffer don't feel ashamed and aren't afraid to ask for help, allowing for early recognition and intervention which is so important in treating this disease.

*Does Anything Else Matter When You Have Someone To Win For?*  
A TRUE STORY ABOUT DANIEL OLSON'S BATTLE WITH DEPRESSION & THE 2012 ISHPERING HEMATITES  
NARRATED BY: JAIME OLSON

**Election Sign Public Service Announcement:** I have been getting questioned regarding placement of election signage. My office has reached out to the County Clerk's Office and Hartland Township to inquire about easement and obstruction of view placements. If you are concerned that signage has been placed on your property (any easement is a property owner's right to control), or concerned that signage blocks your view to oncoming traffic, you can reach out to the township in which you live to notify them of this concern. Signage is a township ordinance issue not a district issue. Again, please contact your township with concerns as the school district does not have jurisdiction over signage placement.

**After School Support for Math and English at Hartland High School:** Beginning next week, the high school staff is going to be offering Math and English support after school on a regular basis on Mondays, Wednesdays and Thursdays. Teachers will be available for one hour after school. Students can attend for the entire hour or just a portion of it. However, they do need to be in the room by 2:30pm if they plan on attending.

Math will be open to anyone on all three of the days. English 9 support will be on Monday. English 10 and 12 will be on Wednesday. English 11 support will be on Thursday. Students do not need to make an appointment to attend as this is open to all who need/want help. Our teachers and classrooms will rotate, so staff will post a schedule on the office window of the room location for the day. Students can talk with their current math/ELA teacher for the specific location. This time should be used to help with the current curriculum and content they are working on as well as old stuff from previous years that they want help with. If your student is interested in attending on Monday, math support will be in room 309 and ELA 9 will be in room 307.

**Note:** Our other buildings will be reaching out to parents regarding after school academic support opportunities. These programs are being made available using one-time dollars designed to help children overcome learning loss due to the challenges of education during the past few years.

**Reminder from Mr. Rogers:** I came across this message from Mr. Rogers' that is impactful in light of how we are all dealing with current social, political, and emotional issues (<https://twitter.com/FredRogersPro/status/1569030521790791685?t=oJpr9pPJJa84xgRQX2E9aTA&s=03>). Thank you for all that you do to ensure that our children are kept out of adult issues and allowed to be kids in a safe environment.

***“Too many people think the grass is greener somewhere else, but the grass is green where you water it. Remember that.”***

**Spring 2022 ELA and Math Shows Gains in HCS:** Below you will find information regarding how students in HCS showed growth in ELA and Math. While we are not surprised that our scores are not back to the 2019 levels due to the challenges presented due to the COVID pandemic, we are encouraged to be seeing growth. You can see how our students performed compared to the county and state. Again, encouraging to see that students outperformed the mean scores.

Spring 2022 MSTEP Comparisons										
District / Year	3rd ELA	3rd Math	4th ELA	4th Math	5th ELA	5th Math	6th ELA	6th Math	7th ELA	7th Math
Hartland / 2021	58%	59%	46%	51%	61%	44%	56%	49%	56%	47%
Hartland / 2022	70%	70%	56%	53%	62%	48%	60%	53%	52%	50%
County / 2021	52%	55%	51%	47%	56%	44%	51%	41%	53%	43%
