April 12, 2023

Dear HCS Education Community:

STEM Center at Farms Intermediate Being Created: Progress is being made to create the new Science, Technology, Engineering and Math (STEM) center at Farms Intermediate. This program will bridge the elementary STEM programs with the middle school and high school curriculums. The plan is to implement this program in the fall of 2023. We will be posting for a STEM teacher soon.

Non-Homestead Community Question and Answer Session: This is a reminder that tomorrow night I will be hosting a Non-Homestead Q & A session at 6:00 p.m. in the Board of Education Room at the Hartland Educational Support Service Center. All community members interested in learning more about this proposal are invited to attend. Come with your questions ready. Here is a video that you can view which might help along with the information in the March and April Community Life, and the Non-homestead link on our website at www.hartlandschools.us, : <https://youtu.be/-46bLVqI9dI>.

Farms Intermediate School Matter: The district committed to an outside investigation. This is now complete with no evidence to show any FERPA violation.

Winter Athletic Presentation: Mr. Wheeler presented the winter athletic highlights at the April 10, 2023 Board Meeting. I promised to share this with the community. Take a look: <http://www.hartlandschools.us/documents/Superintendent-Updates/2023-Winter-Athletics-Board-Presentation.pdf>

Hartland Soup: The next Hartland Soup will be held at Hartland Middle School on April 25, 2023. Please visit <https://www.hartlandliving.com/event/hartland-soup/> to learn more and to register.

Respectfully,

Chuck Hughes

Life is too short!

*“Grudges are a waste of happiness.
Laugh when you can,
Apologize when you should,
and let go of what you can’t change.
Love deeply and forgive quickly.
Life is too short to be unhappy.”*
