Mr. Matt Marino
Director of Transportation and Operations
Hartland Consolidated Schools

**Subject: Hartland Consolidated Schools
Village Elementary
10632 Hibner Road
Hartland, Livingston County, Michigan 48353**

Mr. Marino:

NOVA Consultants, Inc. (NOVA) received a call on Wednesday, April 10, 2024, from Michigan Department of Environment, Great Lakes, and Energy (EGLE) regarding leaking drums at the above referenced site. The EGLE representative indicated a Pollution Emergency Alerting System (PEAS) report was generated by a member of the Hartland community. NOVA personnel indicated to EGLE that a site visit was scheduled Thursday, April 11, 2024 to investigate the situation.

During the site visit on April 11, 2024, NOVA personnel observed 10 – 55-gallon drums on the south side of the existing maintenance building and 1 – 55 gallon drum on the south side of the existing storage building. Of the 10 drums on the south side of the maintenance building, 3 drums were empty. The other 7 drums contain non-hazardous soil that was generated during well drilling for the closure sampling that EGLE requires for site closure of a Part 213 underground storage tank release which occurred in 1994. None of the 7 drums holding the soils were leaking and no soil was observed. The drum on the south side of the storage building was empty, and previously held a glue that is used during installation of the playground. The empty drums were properly disposed. The remaining drums were to be disposed when the existing treatment system was dismantled and abandoned once closure was confirmed by EGLE. However, Hartland Consolidated Schools has now moved the drums to a secure place. The 7 drums will be properly disposed at an EGLE approved Landfill. EGLE was notified on April 11 of our findings and they required no further action. Please feel free to contact NOVA at (248) 347-3512 if you have any questions or concerns. Thank you.

Sincerely,
NOVA Consultants, Inc.

Jeff Eckhout
Senior Project Manager

Board Meeting Recording:

Unfortunately, there was an issue with the recording for Monday evening Board of Education meeting. The meeting did not record. We are analyzing the issue for future meetings. The good news is that all who wished to attend in person and via Zoom were able to do so. Thank you for your continued interest in the district.

2023-24 Staff Perception Survey:

The 2023-24 results are in and are very complimentary of the district administration with a 59% return rate.

Do you feel proud to be an employee in HCS? **91% stated All or Most of the Time**

Do you feel physically safe at work? **99% stated All or Most of the Time**

Do you feel respected by your immediate supervisor/building principal? **94% stated All or Most of the Time**

Do you feel adequate support from your immediate supervisor/building principal in dealing with difficult issues? **93% stated All or Most of the Time**

I value and support the operation of the district under the current administration. **93% stated Agree or Strongly Agree**

Thank you staff for sharing your positive perspective of the district leadership team.

School Safety Team Survey Results for 2023-24:

The School Resource Officers and School Safety Officers were asked to share their perspective regarding HCS. 100% answered YES to each of the following questions:

Do you feel the schools are safe at HCS?

Do you feel HCS values the culture of a safe learning environment?

Do you feel you collaborate well with building administration on safety issues?

Do you building safety needs/concerns get addressed?

Do you have the appropriate resources for establishing a safe environment within the building?

Thank you to our School Resource and Safety Officers for the outstanding work you are doing daily.
